

COVER LETTER

Dear Sir / Ma'am,

I am Amiya Ranjan Das, a seasoned legal professional with a wealth of professional experience and a keen interest in the legal intricacies for the business world. Working with prestigious law firms and acquiring useful insights through various internships, I have honed my knowledge in Corporate law through out my career. My areas of interest include Corporate Governance, Mergers and Acquisitions, Investment Laws and Contract Law.

I have the professional experience of working as an Associate Advocate at a law firm based in New Delhi. After diving into the real world of litigation, I've developed a thorough understanding in M&A, Institutional Finance and Investment Laws (PE & VC Transactions) in corporate law that have piqued my interest.

As an aspiring transactional lawyer, my objective is to provide strategic legal advise to organizations while also assisting them in navigating the ever-changing legal landscape. I enjoy the intellectual difficulties that complicated legal matters bring, and I get a lot of satisfaction from coming up with creative solutions that safeguard my clients' interests while also supporting their growth and success.

Beyond the professional realm, my motivation stems from a genuine desire to positively impact society through my work. I hope to contribute to a society where businesses succeed while upholding ideals of integrity and social responsibility by advocating for ethical practices and working for the greater good. I am quite keen to explore my suitability for your organization as your organization is doing pioneer work in the field of law. I would be glad to get an opportunity to interact further.

Yours sincerely,

Amiya Ranjan Das.
