Sub – Cover Letter to job application for the post ‘Associate – Commercial IP’

Dear Sir/Madam,

After having worked and interned in the field of litigation and handling matters relating to various field of law including caveat, property, labour, cheque bounce, matrimonial etc I have gained a vast exposure with respect to the legal framework governing the process of court of law. The entire journey from the very initiation of a suit, be it legal notice till the conclusion of reaching judgement has been of great learning to me.

Despite being fully involved in my legal practice I always was curious and had a deep rooted interest in the field of Intellectual Property. All the credit goes to the various moot courts and IP committee of my law school for conducting various seminar and lectures regarding the interesting subject. This new interest had led me to attend my first certificate course in IPR conducted none other than my own college. It only enhanced my further interest and liking for this field of practice.

I was gladdened after having seen a notification regarding a job post as Associate in the field of Commercial IP at your reputed firm. I am writing this cover letter to bring to your attention that despite having no specific experience of working in this field, I am very much dedicated and interested to venture out my career in this field of practice. I am applying for this job post with the hope that I satisfy the criteria you look for in your hiring candidate. If given the opportunity I am ready to put in my sweat and mind into bringing major contribution to your firm.

If you have any questions please contact me at Ph. No. 8329109043 or email – navaldjagtap7@gmail.com

Thank you.

Sincerely,
Naval Jagtap
