

Respected Sir/Ma'am,

I am writing to express my keen interest in the Commercial IP Associate position at Spice Route Legal. As a recent law graduate who has just obtained a Master of Laws degree specializing in Intellectual Property Rights from Queen Mary University of London, I believe I possess the essential academic qualifications for this role. Over the past few weeks, I have been researching about Spice Route Legal extensively, and have been incredibly impressed by the growth and distinguished work the firm has undertaken in recent years.

I noted Spice Route Legal's representation of the Milaap organisation in an intellectual property dispute with Google and Impact Guru regarding contributory trademark infringement over Google AdWords. This matter marked the firm's debut on Benchmark Litigation's ranking of leading intellectual property disputes practices in Asia. Additionally, the firm advised OkCredit on over 30 trademark filings, assisted Meta with content licensing both domestically and internationally encompassing more than 3,000 pieces across the Asia Pacific region, and represented one of India's largest production houses in licensing of a song.

Beyond these achievements, I was intrigued to learn about Spice Route Legal's growing involvement in the artificial intelligence industry space. The firm assisted a London-based AI healthcare communications platform and a commercial bank to structure the use of artificial intelligence technology in its services. As I am committed to intellectual property rights law practice, given Spice Route Legal's leadership in the field of intellectual property law across both traditional domains and emerging technologies, is one of the reasons I want to apply to this firm.

I am an eager and dedicated learner who follows a strong work ethic and has the resilience to constantly grow even after setbacks. Over the past year since relocating to the UK for further education, I have enthusiastically explored opportunities at leading global intellectual property law firms including Hogan Lovells, Herbert Smith Freehills, Gowling WLG, Bird&Bird, and Forresters through attending various events, meetings, and insight days. At these experiences, I networked with trainees, senior associates and partners who provided meaningful perspectives on disputes and advancements in legal technology, intellectual property, and artificial intelligence on an international scale.

Currently, I have secured a role as Legal & Compliance Officer at Varahi Group, a growing London business enterprise involved in immigration, recruitment, and assisting clients with small business acquisitions. While I gain experience in corporate and commercial law, I remain passionate about pursuing a career specializing in intellectual property law.

In summary, through my academic background and proactive networking efforts, I have developed a strong foundation in intellectual property and commercial law. I am eager to take the next step in my career by bringing this expertise to an established firm with a leading global intellectual property practice. I am certain that this is the ideal firm to launch my legal career. I would greatly appreciate your consideration for the Commercial IP Associate role. I anticipate a positive response to my application. Thank You.

Kind Regards,  
Dhruv Pandya
